***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: applicants claim a process for preparing a cyclohexyl phenyl ketone from a 1,3-butadiene and acrylic acid. The closest prior art of record teaches the reaction of benzoic acid with cyclohexane carboxylic acid in the presence of a catalyst. The closest prior art of record, however, fails to teach or fairly suggest the reaction of 1,3-butadiene and acrylic acid, and subsequent hydrogenation, chlorination, and Friedel-Crafts acylation of the resulting carboxylic acid, to produce the cyclohexyl phenyl ketone, as claimed herein. Therefore, the instant claims have been allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sikarl A. Witherspoon whose telephone number is 571-272-0649. The examiner can normally be reached on M-F 8:30-6:30.
